

MORNING APPEAL

Official Paper of Ormsby County
WEDNESDAY, MAY 20

The Enterprise says Gen Clark has become a prize fight crank. Judge Beatty also had a weakness for the pugilistic art and was present at the famous mill between Bill Davis and Tom Daily on the Carson river.

The colored citizens of Carson and their families are respectfully invited to attend a private meeting to be held at Mrs. Bullock's residence on Thursday, May 21st, by request of Ed. Lee, J. C. Carroll and J. M. Jiles, Committee.

The APPEAL acknowledges the receipt of complimentary tickets to the Y. L. I. strawberry party on Thursday night.

Dr. Fox treats all diseases of the rectum, including hemorrhoids, fistula, fissures and ulcers, on modern scientific principles and radically cures without pain, without loss of blood and detention from business.

Diseases of woman a specialty.

Mint Julip.

For an appetizing Mint Julip, made on strictly scientific principles, go to the old, established Capitol Saloon and Lodging House.

Mrs. J. FORREST,
my 20 1m Proprietress.

Dr. Fox treats private, chronic, and nervous diseases of men, nervous debility, impotence, stricture and all other weakness of manhood.

Sandrock and Millard, practical plumbers and gasfitters, have opened a shop in Dick Mills' old stand South Carson St., and propose to do all work in their line at prices so low that you don't have to mortgage your property, to pay them. Stoves and ranges and all kinds of tinware on hand, at very reasonable rates. Razors and scissors sharpened. j81tf.

More bargains in pictures. For 20 days I will make cabinet pictures for \$3 per dozen. Paris panels, \$6, 14x17 crayon finely framed, only \$5. Legislative groups less than cost. Business closes June 1st. Jas. H. Crookwell.

Stricture treated with phenomenal success by a new method.
m12 Dr. Fox.

FROM BREYFOGLE.

The Country one of Great Possibilities-A Mill to Be Put Up in Montgomery-Development Work Needed to Determine the Merits of the Country.

The Chloride Belt publishes the following regarding the Breyfogle District:

R. J. Laws and party, whose return has been anxiously looked for by quite a number who have been thinking of trying their fortunes in the new district, came in Thursday afternoon. He was rather pleased than otherwise with what he saw in the Breyfogle country, and thinks it not improbable that in about a year, when development work has shown what merit there is in the mines an important mining camp may be found thereabouts.

"As I understand there are quite a number of people in Candelaria who think of going to Breyfogle, a word about the roads and watering places. We went by the way of Fish Lake Valley and returned by Silver Peak. By the former route you can reach Montgomery's camp in 205 miles. By the latter it is 190 miles. We drove to McAfee's the first day, 42 miles. From Candelaria to Lida water is found in convenient places. After leaving Lida it is 33 1-2 miles to next water-at Thorpe's mill. Here there is a well and conveniences for hoisting water to the surface. Nine and one-half miles beyond Thorpe's is a spring, but would advise travelers not to use this water, either for themselves or horses. Twenty-three miles from Thorpe's, at the head of the Oasis Valley, there is a fine spring and a good camping ground. A few miles further is a ranch house and another spring (Boom's place).

"The road now leads down the Amagosa river, past Steadman's ranch, a distance of ten miles, where the water sinks. From here on is a long drive of 38 miles without water, to the head of Ash Meadows, where we found a fine spring and a mile further on, at Powell's ranch, there is more water. From Howell's the road runs directly east 16 1-2 miles to Montgomery's camp. A portion of the road leading up the canyon is very rough. This is the only bad strip of the road we found and a little work will put it in condition. A present loaded team will find it necessary to double up. In case the camp turns out well I

"Montgomery was expected back every day when we were there. It was understood that he would return with a small mill, and that he

has good financial backing to enable him to go on and develop his property. The work done so far on the bonanza claim, consists of six or seven holes sunk on the ledge at different points, showing a uniform width of the vein of five feet. The ore is a lively looking quartz, which Mr. Shattuck, Montgomery's partner, thinks will mill \$40. It contains some sulphurets and will have to be concentrated to save the gold. Wood and water are both convenient to the camp, the Charleston range of mountains being covered with timber. Cord wood can be laid down at not to exceed \$7 per cord, and about 35 miles from Montgomery there is a small saw mill at which lumber can be obtained. Two springs are close by, the present supply of water being obtained from one four miles distant, the altitude being sufficiently above the camp to admit of its being conveyed in pipes.

"The mail is brought in once a week by a rider, from Ivanpah. The prospects of having the route to Ivanpah extended to Gold Mountain in this county, via Montgomery, are said to be good. At Yount's camp the Yount Brothers have a shaft down 45 feet on the vein, the ore in the bottom showing a width of three feet. A spring two miles distant furnishes the camp with pure water.

"The country is located for miles around, and that has a discouraging effect on new arrivals. However, there is plenty of mineral in the country, other than gold, and I have no doubt there are men in the district today with little or no worldly possessions,

who will in a few years become wealthy on the mineral resources of the section."

am of the opinion the road from Candelaria to Montgomery can be straightened out so that the necessity of crossing a couple of mountain ranges will be avoided, and that Candelaria will be brought within 160 miles of Montgomery-which is the distance to Dagget. I am informed that the Dagget road is not near as good as the one to Candelaria.

"Our time was limited and we only spent a day and a half in the district. At Montgomery's camp there are only 20 or 25 men, and at Yount's, two miles south, about the same number. The men from Candelaria are the latter. I was told that many men had been there the last two months, remained a short time and went away. There is a store at Montgomery's camp, and liquor can be obtained.

The Great Fight.

It is estimated that at least one million dollars is at stake in various parts of the world on the Jackson-Corbett fight to-morrow night.

Lawrence Elrod and John Jones of the Mint left yesterday to see the mill. Mr. Jones will act as the APPEAL reporter and wire the rounds. The APPEAL has made arrangements with the Western Union to have a telegraphic report of the fight.

Corbett, with his youth, strength and cleverness, ought to win, and then again, a man of his education and family connections ought to be thumped to death for embracing pugilism as a profession.

Is the Climate Changing?

On Sunday there was a magnificent rain.

Nevada has been treated to several good rains this spring.

General Irish predicted last Winter that Nevada was about to enter on a period of moisture. If this is true it will be a godsend to the State. Years ago when the writer first lived in Nebraska it was almost a rainless region.

Presently the climate changed, and artificial irrigation was no longer needed.

Scientists say that tree planting brings about the change.

A Mud-hole Episode.

Joe Muller, the adonis of the wheel met with a severe accident last evening. In attempting to smash the world's record on Carson street, he ran into a mud-hole which caused the festive Joe and wheel to separate, the consequence of which gives his face the appearance of being struck with a pile driver. When seen by a reporter later in the evening he stated that the main cause of his misfortune was due to the fact that one of the gentler sex attracted his attention from the road.

A Carson Boy's Success.

The following young persons will receive diplomas from the Sierra Normal College at Auburn next Thursday evening: Normal Department, Miss Blanche Hawk, of Rocklin, and Miss Mary Hamilton, and Ross Tebbis, of Auburn. Commercial Department, Camille Spooner, of Carson City, Nev., F. Betton, of Auburn, and W. B. Nicholl, of San Pablo, California. -Record Union.

Hard at It.

Directors of the Nevada State Agricultural Society are working hard for the success of the Fair this year. It is to be hoped that the citizens of the State generally will recognize the importance of bringing out Nevada's resources, and that the various counties will have an exhibit and compete for the premiums offered for county exhibits.

A Peeping Tom.

Two men in this city have been in the habit of doing the "Peeping Tom" act of late. They have been caught at it on several occasions, but they will be caught at it once too often some day, and after a dose of the "tar bucket," will not be apt to try their game again.

Judgment Rendered.

In the case of State vs. The Sutro Tunnel Company, tried at Dayton, judgment was rendered against the company for taxes monthly and costs.

Thrown From a Horse.

Last Sunday the youngest son of Assemblyman Thompson was violently thrown from a horse on his father's ranch, and rolled upon by the animal, and was seriously injured.

Still Remains.

The sagebrush at the graveyard still remains, and if parties don't take interest in having it removed soon, the probability is it will be there on Memorial Day.
